

Hi All

One issue many of us had during the hurricane was water being driven under our front doors. There is a company that can install a new threshold to eliminate the issue in the future. If you are interested in having your threshold replaced you can contact Renovations Plus for more information.

See the info below:

Company : Renovations Plus

Threshold Replacement Price: 250.00

Work includes:

- remove existing threshold
- pick up and install new threshold setting it in a concrete mortar bed

Call: 239-593-6200 (answering service)

Mention you are calling from Bridgewater at Bonita Beach for threshold replacement.
